

# Aluprof ColorCollection

- The Decoral coating process makes it possible to powder coat our Aluminium profiles, with a „wood-grain” or „marble effect” choice of pattern.
- The technology used in the process & the way in which it has been applied, are in accordance with Qualicoat & Qualideco specification.
- A 10 year warranty of finish is applicable.
- The process is flexible enough to permit the painting of Aluminium profile and metal sheet.
- Further \*specialist colour options, including bespoke or custom requests for specific project needs, can be available subject to a minimum order value.

\* Please contact Aluprof for further details of this aspect of our offer.

Aluprof's Decoral range includes 9 basic colours:

- **ADEC D101 - golden oak**
- **ADEC O102 - walnut**
- **ADEC M103 - mahogany**
